Rep 7-SR

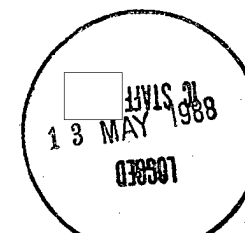

MEMORANDUM FOR: DDR&E Task Force

FROM:

Chief, Intelligence Producers Council Staff

SUBJECT:

A Review of Anticipated World Events and Issues

1. The attached report--A Review of Anticipated World Events and Issues, FY 1989--was prepared by the NIC at my request. The report serves as the basis for the National Intelligence Topics (NITs) data call and is provided to the policy community in an effort to stimulate their thinking in identifying top level requirements and issues for the coming year.

25X1

2. I personally believe the report is well done, insightful and captures the essence of the major problems and issues we face in the coming months. Therefore, I am providing it to you for your information and planning purposes as appropriate. The NITs data call package--NIC paper included--is presently on the DCI's desk for signature. I anticipate that it will be signed either today or tomorrow and the FY 1989 NIT process will be underway. The formal NIT report for FY 1989 will be published shortly after (SIG(I) approval in July.

3. Moreover, Chairman/IPC, Vice Chairman/NIC and I have been discussing the possibility of the NIC and IPC Staff embellishing the NIC paper and publishing it as a formal document and giving it broad community dissemination. We see significant utility in undertaking this effort, however, there are still some administrative and management procedures to be resolved.

4. If I can be of further assistance on this subject, please let me know.
